

# naturally better, without fragrance

Many litters contain added fragrances, but what smells good to us can be harmful to your cat. That's why we've decided to make a change. We're committed to providing natural, unscented litters that block odor without the need for fragrances, ensuring a healthy feline environment. Dr. Elsey's Ultra litter is the best alternative to scented litters. Ultra is our #1 selling litter and has superior odor control and is perfect for multi-cat families.

*"While scented litter is a very popular option with cat owners, it is not the best for the cat and the household. The choice for us is simple, we will only produce products that help improve the lives of cats."*

— Dr. Bruce Elsey
