

# West Paw®

**What does  
“responsibly made”  
mean to us?**

It means every toy we create is made in the USA with care, using materials that are better for the planet, our team, and your pet. Because we manufacture everything here in Montana, we're able to ensure consistent pricing, faster delivery, and high-quality products you and your furry best friend can count on. You can trust that every toy is not only non-toxic, long-lasting, and sustainably made — but also designed to improve your dog's life.
