

# Built for Growth. Powered by Pets.

BrightPet is where trusted brands meet operational excellence. With a diversified portfolio spanning freeze-dried, kibble, baked, granola, and more, we build brands that earn loyalty and deliver velocity. From supporting industry leaders, like our own Stewart brand, to innovation-driven co-man and private label customers, our focus is simple: create products pets love and retailers can grow with.

## WE COMBINE:

- Category insight grounded in data
- Scalable manufacturing across multiple U.S. facilities
- Operational discipline that protects margin

At BrightPet, we don't just participate in the category. We strengthen it.

Let's build what's next in pet.
