

# THE BIGGEST SPLASH IN DOG HYDRATION SINCE THE WATER BOWL

Introducing H2GO! -a ready-to-lick hydration gel for dogs.

Designed to deliver fast, effective hydration in a simple, mess-free format. This innovative gel helps support hydration when dogs need it most, without the hassle of carrying a bowl or stopping to pour water. Originally developed for the military and elite human performance, H2GO! uses advanced hydrocolloid technology to deliver water directly to cells, supporting long-lasting hydration.

H2GO! is perfect for active dogs, outdoor adventures, training days, travel, or warm weather. Just tear, squeeze, and let your dog lick. It is an easy way to help support hydration before, during, or after activity. Each 2oz pouch hydrates like 1 cup of water.

**PROTEIN-POWERED HYDRATION**

**LONG LASTING CELLULAR SUPPORT**

**NO SUGAR, NO SODIUM LOAD**
