

VETWATER

Empowering you to support
your pet's health with clinically
proven hydration.

**VETWATER is the ONLY mineral-free
and pH optimized water for dogs and cats.**

CATWATER Benefits:

Helps increase water consumption in cats — CATWATER is ozonated and chlorine-free with a light rate of acidity which encourages cats to drink more

Helps promote an ideal urinary pH — CATWATER has a perfectly balanced pH between 6.2 and 6.4 that suits cats' needs

Helps minimize the presence of the minerals responsible for causing crystals and stones in the bladder — CATWATER contains no minerals associated to urinary problems

DOGWATER Benefits:

Reduce urine smell — DOGWATER is nitrate-free which helps reduce the smell of urine

Promote an ideal urinary pH — DOGWATER has a perfectly balanced pH between 7.1 – 7.3 to suit dog needs

Minimize the presence of the minerals responsible for causing crystals and stones in the bladder — DOGWATER contains no minerals associated with urinary tract problems
